BRUT DE CRAIE

Granit

Brut de Craie is a natural linen coated on its front side with a chalky paste in the spirit of limescale. The second step consists of an intense washing to impregnate the fabric and fix the material deep into the fibres. This is why Brut de Craie really has a front and a back side, leaving the user free to present one side or the other.

Brute de Craie will offer a wonderful fall for curtains, it will also be very elegant on seats but we strongly recommend you to use a stain bomb to protect the fabric from dirt due to its matt finish.
